Tom and Gary,

It's being used through next summer (2014) at Portage Creek dredging site. Not sure when you would need it. Let me know if you still want to talk. Thanks

Mike/Sam-

How are you fellas? Hope all is well... Mike I wanted to introduce Gary and pass along his info to you, Gary is an OSC here in R6 and has a great site he's working on that possibly needs some on-site water treatment/disposal options and the Belle is ideal for this site. If you could please contact him to see if availability and tasking is possible that would be much appreciated!!!

Thanks
